Who We Are

Operation Hope Foundation's mission to help the poor in developing countries is based on the principle that donations must be carefully used to provide maximum benefits to the beneficiaries. It looks at the needs, decide if OHF can provide a good solution and then execute the programs. We focus on operations, check expenses carefully and installed street smart processes to prevent fraud and wastages.

Make Hope Real is not just a slogan but forms the basis of deciding how and who to help. We do not believe in having large numbers to impress donors but in delivering tangible benefits that change lives. For example giving a \$5000 house to a poor family truly changes the lives of the family members but the statistics looks bad as only 4 to 6 people benefitted from the \$5000 project.

In a nutshell, our purpose is to Make Hope Real.

The poorest of the poor are least able to help themselves without help. OHF's mission is to make hope real for them by providing tangible benefits that change lives

Our Mission

Deliver appropriate solutions with high benefit to cost ratio, using street smart processes to detect fraud and stretching the donor's dollar to do more with less.

Our Vision

Make hope real for people trapped in poverty.

Our Guiding Values

- 2001
- 2003
- 2004
- 2005
- 2007
- 2009
- 2011
- 2013
- 2015
- 2017
- 2019

Our Origin

Established in 2001, our story started when our founder, Robert Kee recognized the need to help vulnerable children and families in Cambodia and Nepal.

The foundation started a children home in Cambodia and Nepal and expanded to include community and livelihood projects . It developes street smart processes to ensure there is no fraud in its operation centres

Our Programs

These are just some of the work we do

Build robust, cost-effective, fit for purpose shelters and sanitation systems in rural areas in Cambodia

Provide a home for poor or abandoned children living in dilapidated houses with guardians who are unable to provide basic living.

Build 155 houses using an innovative construction method using rice bags for Nepal earthquake victims

Provide a solution to convert organic waste into fertilisers within less than 24 hours using the Biomax Digester

Community Projects

Volunteer Programs

Livelihood Programs

Children Homes

What We Achieved

Our Impact

302

**Children in
Cambodia**

Hope Village Prey Veng has admitted 302 children since 2003. In 2024 it released 19 children and admitted 4. Total number of children in Hope Village Prey Veng at end 2024 is 69.

We continue to identify and help very poor families by giving them a nice wooden house, toilets or well complete with air-lift pump and generator. These are tangible projects that have significant improvement to their lives.

**17,12,
15**

**Houses, wells and
toilets**

5

UV water systems

1,500 students in 5 schools have safe water to drink from the 5 Ultra Violet Water system we installed.

206 students do not skip classes to earn money as we give their families a food pack with 50kg of rice ,canned food and other items every two months. This Non Residential Child Sponsorship program has been effective in improving the students grades.

**206,
1052
and
261**

**Students sponsored,
food and stationary
packs.**

We have started production of organic fertilisers from organic waste using the Bio max Digester. The production process is working well, from purchase and collecting the organic waste to shredding the waste and operating the Digester

1914

**Bags of organic
fertilisers made**

11

**Teams visited
Cambodia**

11 Teams from companies, polytechnics and churches participated in community projects building houses, wells toilets in Cambodia.

58

Children in Nepal

We have 58 children in Nepal. 42 children were enrolled in a boarding school in Pokhara city and 12 are home-schooled.

The Nepali children have grown and harvested 1644 kg of vegetables worth S\$1,364. This was mainly due to the hard work and diligence of 2 houseparent and a cook.

1644

Kg of vegetables grown

Update on what we have done in Cambodia since 2011

YEAR	ENROLLMENT		SUMMARY OF BUILT COMMUNITY PROJECTS				
	TJSSS (3 months)	TJSSS (7 months)	Houses	Well	Toilet	UV Water System	NRCS Students
2011			9	56	0		
2012	97		14	31	18		
2013	92		54	8	54		
2014	33	26	99	23	160		
2015	37	33	33	18	132		
2016	53	13	37	20	93	2	
2017	56	26	43	20	30	1	69
2018	50	26	38	7	17	12	104
2019	32	20	31	16	37	10	102
2020	16	34	28	14	19	4	133
2021	0	0	19	9	13	4	147
2022	11	11	14	2	22	7	148
2023	0	0	12	1	11	3	146
2024	0	0	17	12	15	5	206
2025	0	0	5	12	9	2	223
TOTAL	477	189	453	249	630	50	1278

Our Financials

The donations were received to support the establishment and on-going operations of the Foundation's poverty alleviation programmes in the respective countries as follows:

	Group and Foundation	
	<u>2024</u> SGD	<u>2023</u> SGD
General	259,953	315,751
Cambodia	506,962	416,326
Nepal	139,157	129,076
	<u>906,072</u>	<u>861,153</u>

Total donations received for the year was \$906,072 of which 56% was transferred to Cambodia and 15.3% to Nepal. The total of 71.3% sent overseas does not include cost of Singapore staff who are involved in the day to day management of the overseas operations. If this cost was added the percentage of expenses spent on overseas projects will exceed 80%.

What is in store for 2025?

There will be an increase in the number of children at Hope Village Prey Veng to over a hundred as we have done interviews and are preparing the documentation for admission. We hope to double the number of teams and increase the number of community projects. Another goal is to increase the number of Non Residential Child Sponsors to 400 as there are many poor students waiting for our assistance.

Pending approval from the Government, we hope to increase the number of children at Nepal Advancement to 100.
